For Relatives & Friends Concerned about the use of Drugs or Related Behavioural Problems

YOUR FELLOWSHIP NEEDS YOU!

When you found FA, did you know that it happened ONLY because of volunteers?

There are still people looking for FA, who haven't found us yet.

Without volunteers they will not find us.

What a terrible thought!

When you are ready, here is what you can do:

Help out in the office in Stroud, sending out literature, opening the post (travel expenses paid).

Help out answering the phone, via call divert to your phone, daytime, evening or weekend telephone rota - just a 3 hour slot. We recommend a member has been in FA for at least one year to do this role.

Administration of website forum: Helping to register those who wish to participate in the discussion forum on the website and posting items onto the website forum. This is NOT as daunting as it sounds, you will be trained and it can be done remotely from home.

Helping remotely with website updates or checking the office emails; you don't have to be a techie to do this.

To find out more, contact a member of the Board, the office or simply fill in your details below, return them to the office and one of us will contact you. Do not worry, we will provide full training and you can start on a trial basis.

I would like to volunteer to give service back to FA.
